

## Rocky Mountain Intensives

*Four Classes to More Colourful Paintings*

### Group of Seven Learning Series

With Erica Neumann at Paintworks Art Studio

If you are craving more colour in your work there's no better way to learn than by studying the Group of Seven and how they represented the Rockies.

We will take four 2 ½ hr classes to reproduce a Group of Seven painting highlighting an aspect of landscape painting that you can use in your own work in the future. Instructor Erica Neumann will discuss the traditions behind each work and demonstrate each phase of the painting. She'll paint a bit, then you follow, step by step, as she guides you through to a fabulous finish by the end of every course.

Paint in your favourite medium.
